

# Safer Hull

Safer, Stronger, Resilient Communities

## Partnership Intelligence Upskilling Session

Presented by Safer Hull and Humberside Police

As professionals we support and encounter many adults, children and scenarios everyday. Those interactions could be the missing piece in the jigsaw allowing the Police to conduct further action.

If you've ever sat and wondered 'should I tell someone about this?' or 'how can I let someone know about my concerns?' but not known the best way to do so? Then join our online session.

The session is aimed at helping all partnership staff including Council, Fire & Rescue, Health, Probation and wider to understand what intelligence is and when and how to submit it. No matter what area of business you work in your information can be vital.

Trust your gut and report it.
