In this informative, accessible webinar, our experienced Associate Property Advisers, will cover the basics of how to do a risk assessment on charity premises so that you understand what risks you need to look at, and how ignoring could affect the volunteers, staff and service users in your organisation.

- Work your way through a risk assessment calmly, understanding with confidence the different sections and common words and phrases used.
- Understand the background to Health and Safety Legislation.
- Recognise the importance of conducting and documenting risk assessments to fulfil your Health and Safety responsibilities, and consider their impact on employees, visitors, and clients.
- Learn how Health and Safety practices are interconnected with your insurance policies.
- Evaluate and prioritise your timetable for the most urgent changes, easiest improvements and affordable items to be purchased.

Participants will receive a resources kit with the opportunity to obtain free follow-up expert advice through our Ask a Property Expert Service.
